BYO Device Setup

Please follow the below guide to get your BYO Device (Windows or MacBook) setup.

Connecting to the school Wi-Fi

1. **Connect to the school Wi-Fi** (KIAS_Secure) with your curriculum username and password; the same one you use to login to a school laptop (username is firstname.lastname).
2. Open your web browser (Edge, Chrome or Safari) and **download the SWiFT Certificate** by going to certs.swift.sa.edu.au. The installation instructions for each operating system are on this website. Restart your web browser after you've installed the certificate and you should now be able to browse the internet.

Activating Microsoft 365

Windows

- Open a Microsoft 365 app (Word) and login using your @schools.sa.edu.au email address. This will activate the software and you can start using it straight away.

MacOS

1. Open your web browser and browse to office.com; then sign in using your @schools.sa.edu.au email address.
2. Click the 'Install Apps' button and wait for the software to download and install.
3. Open a Microsoft app (Word) and login using your @schools.sa.edu.au email. This will activate the software and you can start using it.

Log into OneDrive

1. Open the OneDrive app on your device by searching for it (Start Menu on Windows, Spotlight Search on MacOS).
2. Enter your @schools.sa.edu.au email address and login.
3. Your files will now be accessible. All documents saved here will automatically sync to the cloud.

Adding the printers

- Open your web browser and go to 0957svrfp1:9163/setup – simply follow the instructions on the PaperCut Portal to add the printers. When prompted, use your curriculum login to use the printers.

Student and Staff Links

The Student and Staff Links page can be accessed by going to the link below – it's a good idea to bookmark it.
